Workshops

Research Workshops

Each semester the library hosts a series of workshops where students can learn about a variety of topics that will enhance their ability to conduct effective research, such as using research citation methods (APA, MLA, etc.). All workshops are in the Active Learning Library, Room 171. They are Bring Your Own Device (BYOD) Attend at least 6 to be entered into a Grand Prize drawing. Weekly prizes are given.

Upcoming Workshops:

- Tues., August 26

Join us for a workshop to teach you how to create properly formatted reference lists in APA. We’ll discuss sources for suggested citations as well as how to use Word to create hanging indent and change capitalization. This session is especially designed for faculty and graduate students, but everyone is welcome to attend.

Wed., August 27

- Help! How do I use Turabian? 3-3:45 p.m.
  Does the thought of using Turabian formatting for your bibliography scare you because you’re not even sure how to pronounce the word? Then this workshop is for you because we will discuss how to put together your bibliography and footnotes using the current Turabian manual’s instruction. Moreover, we will show you how to find the necessary bibliographic information in the library’s resources along with some tips and tricks that will make your research a breeze.
